EB, Green Rating for Integrated Habitat
Assessment for Existing Buildings*

organized by
GRIHA Council, New Delhi
in association with
The Energy and Resources Institute

GRIHA Council

Mission

GRIHA Council is mandated to promote development of green buildings and habitats in India through GRIHA.

Goals of GRIHA

Inspire, enable and engage with society to achieve sustainable habitat for all through GRIHA rating.

Training programmes on GRIHAEB

GRIHA Council organises 1-day training programmes on GRIHA EB across the country, round the year.

What is GRIHA EB

GRIHA for Existing buildings (EB) rating is an integrated tool to assess the performance of existing buildings and provide sustainable solutions whilst augmenting the indoor comfort of the occupants. The rated building will enjoy enhanced energy and water performance and increased thermal and visual comfort; ultimately resulting in decreased operational and maintenance costs. GRIHA for Existing Buildings rating is designed with underlining objectives, such as attaining environmental impact reduction, simplicity in execution, alignment with local and national goals, and cost-effectiveness.

What are the unique features of GRIHA EB

- Rates AC as well as Non-AC Buildings.
- Aligned with National Policies.
- Follows National Codes and guidelines, such as NBC, ECBC, CPCB.
- Addresses the data gap in the Indian market.
- Realistic approach towards indoor air quality.
- Optimum rating fee.
- Commissioning is not mandatory.
- Audit is not mandatory.
- Does not impose purchase of imported, expensive products.
- Strategy oriented instead of product oriented.
- Adaptable for all types of buildings.
