

Inter-University Competition on Water Resources Management

Calling Indian Youth to take the Lead in Solving India's Water Problems

PROGRAMME DETAILS

TERI University and TERI (The Energy and Resources Institute) invite team entries from undergraduate students to register for an innovative competitive process, designed to check the level of awareness and personal comprehension of the students about the water bodies close to their place of residence/study. The project will engage students to develop a multi-stakeholder understanding of the need for Integrated Water Resources Management (IWRM).
