GRIHA (Green Rating for Integrated Habitat Assessment) is the national rating system of India. It is an evaluation tool for measuring and rating a building's environmental performance. This set of GRIHA manuals is a guide for building professionals (architects, services engineers, landscape designers, project managers, and contractors) involved in the design and construction of green buildings. The manuals provide a comprehensive understanding of the GRIHA rating system, including its underlying criteria, rating process, strategies for compliance, and the documentation and evaluation procedure.

Key features

- First complete guide to the GRIHA rating system
- Comprehensive manual on criteria, rating process, and strategies
- Graphical representation of documentation preparation and evaluation procedure

Table of contents

Volume 1: Introduction
Volume 2: Technical manual for trainers on sustainable site planning, health and well-being during construction
