

CATALYST Initiative

Integrating sustainability in education

Creating **A**wareness **T**hrough **A**cademics: **L**eading to **Y**outh's **S**ustainable **T**ransformation (CATALYST) a GRIHA Council initiative, is a membership platform for educational institutes. This membership provides the knowledge centers with an opportunity to integrate a sustainability quotient in their existing curriculum. Knowledge centers play a crucial role in shaping our future. With the climate change crisis threatening our environment, this initiative will help equip the students and faculty with tools to combat climate change in the built environment.

Join today to become a CATALYST and play an active role in achieving nations' sustainability goal - The GRIHA way.
